Welcome to the Fifth Annual Student-Faculty Conference!

Although the Conference is only four years old, it has become a tradition here at Cal. Within this short period of time we have had several outstanding conferences. Let's make this the best Student-Faculty Conference yet by entering into it in a spirit of honest give and take.

We feel that one of the primary purposes of the Conference is to supply a situation in which students and faculty may come together to exchange views and ideas on current topics. For many of us students, particularly, there is seldom such an opportunity at a large university like Cal, and we know faculty who feel the same way.

This year our topic asks us to examine campus unrest. We see some issue come up in the Daily Cal almost every day and quite frequently in the big newspapers. We wonder if this unrest is always constructive or if it may be destructive at times. Maybe campus unrest is relevant to our being here at the University. If so, how involved should one become? Through an exchange of ideas of students and faculty we hope each one of you will find some answers for yourself.
